

Mountain Bike

(Jan Bartošek)

1.

When I'm cycling how exciting are these parts of my being
alone with nature it's adventure,
not like boring sightseeing
back in the saddle and I just feel (again) the world became so real
steel pedals beneath my feet I want to keep

REF:

I'm riding my mountain bike
through the whole day and night
even deep swamp ain't gonna stop me
in this freeride of my life

2.

On a travel to my love
with high peaks I need to fight
where the breaks the rims could bite
I'm prepared for that flight
and with last rests of power and with speed few miles an hour
I can fall into the strife so easily

With some bluegrass in my ears
there's no time for any fears
to circle in my veins
On my way through hills and fields
I'm startling all hounds and deers
don't rat me out my friends

3.

But that all was just a past
these good times could never last
Now in my deep urban dreams
I still sometimes feel like...

REF:

... I'm riding my mountain bike
through the whole day and night
even deep swamp ain't gonna stop me
in this freeride of my life
